Japanese air

100% pure natural

@aroma
Japanese air
A collection inspired by the infinite depth and beauty of Japan’s nature and culture.

Japanese air is a unique collection of oil blends exemplifying an aesthetic sense of Japanese flora, nature, and culture. The Japanese Botanical air collection is mainly made from plants harvested in Japan. The Japanese Design air collection focuses on feelings extracted from Japanese scenery and classic motifs. These transcendent aromas resonate with the subconscious.
Japanese Botanical air

A blend of oils from historically cherished Japanese plants.
Each unique blend reflects the climate and environment of the habit
where the plants grow. Be transported away to rural Japan with each scent.

---

**JD 08 ZEN**

Slowly wrapped in a scent of serenity, the image of nothingness calms the mind.

Ingredients: Cypress, Hinoki, Kuromoji, Rosemary, Cedarwood, etc.
100% pure essential oils extracted from the plants grown in Japan

Kabosu
Origin: Oita prefecture
[Extracted from: skin]
Kabosu, a Japanese citrus, is a local specialty from Oita prefecture. The feature of this aroma is a fresh scent with unique bitterness.

Koyamaki
Origin: Wakayama prefecture
[Extracted from: leaves, twigs]
Koyamaki is a conifer tree appreciated as an offering at Koya-mountain a world heritage location. The feature of this aroma is a fresh green scent.

Aomori Hiba
Origin: Aomori prefecture
[Extracted from: wood]
Hiba is a kind of tree indigenous to Japan and known for its versatileness since ancient times. The feature of this aroma is a deep and heavy wooden scent.

Yoshino Hinoki
Origin: Nara prefecture
[Extracted from: wood]
Yoshino Hinoki has been used at Japanese temples since ancient times. The feature of this aroma is a comfortable wooden scent.

Iyokan
Origin: Ehime prefecture
[Extracted from: skin]
Iyokan is a citrus native to Japan. The feature of this aroma is a heart-warming green scent.

Yuzu
Origin: Kochi prefecture
[Extracted from: skin]
Yuzu is a Japanese citrus deeply connected to Japanese customs, such as "Yuzu-yu". The feature of this aroma is gentle sweetness and slight bitterness.
* "Yuzu-yu" is the Japanese tradition of taking a hot citrus bath in winter time to prevent catching a cold.

Ginger (Shoga)
Origin: Kochi prefecture
[Extracted from: roots]
This shoga from the Kochi prefecture is locally grown and famous. The feature of this aroma is a fresh and gentle scent.

Caution ■ Avoid sunlight and store in a cool place. ■ Avoid using or storing near fire. ■ Keep out of reach of children. ■ Do not drink the oil and do not apply directly onto the skin. ■ Securely fasten the cap after each use and use within a year of purchase date. ■ If spilled, wipe immediately, as it may damage and discolor surfaces. ■ Surface If the oil comes directly in contact with eyes, rinse eyes thoroughly with water and seek immediate medical attention. ■ If you are concerned about your physical condition, such as allergies and chemical sensitivities, consult a health care practitioner before use. ■ Stop using immediately, if you get seriously ill during use. *Our essential oils are from natural ingredients. The scent and the color may vary due to the origin environment. [2017.10] Photo: Takumi Ota
